

# GROWTH ENGINEERING LMS

A key part of the Impact Suite, Growth Engineering LMS is the world's most engaging learning management system — by a long shot. It uses the power of engagement, behavioural science and learning best practice to drive *real* results.

## FEATURE SNAPSHOT

### GAMIFICATION

Create engagement and drive behavioural change using game mechanics like Badges, XP, Levels and Leaderboards.

### CONTENT LIBRARY

Help learners find what they need by organising your content and visibility settings using groups, categories and curricula.

### ADMIN TOOLS

Take control over your learners, content and permission settings and share responsibility through an intuitive admin panel.

### SOCIAL LEARNING

Bring your teams together and let them share their knowledge via social streams, focused 'Clubs' and 'Expert Areas'.

### ASSESSMENTS

Track your learners' progress, identify skill gaps and automatically push content using the assessment tool.

### REPORTING SUITE

Quickly run reports on learners or content, using filters and custom settings. Then export the data or schedule further reports.

### CUSTOMISATION

Growth Engineering LMS is fully customisable, so you can build a learning environment that feels like home to your learners.

### CLASSROOM MANAGEMENT

Get the most out of your instructor-led training, with comprehensive classroom and webinar management tools.

### RESPONSIVE UI

Your platform is optimised for all devices, including desktops, tablets and mobiles, creating a user-friendly learning experience.

## IMPACT SUCCESS STORIES

Improved their sales team's conversion rate by **125%**.

Improved their average order size by **94.3%**.

Created **8.4x** more engagement on their new platform than their old system.

“ I knew it was going to be good, but I didn't expect it to be so phenomenal! ”

– Pinda Dhillon, Head of Training Design, EE
