INTEGRATION
STATION

The **Impact Suite** comes locked and loaded with everything you need to delight your learners and deliver business success. But the fun doesn't have to stop there. Thanks to our Power-up options, you can now tap into Growth Engineering's boundless engagement expertise.

The Impact Suite is an integration sensation. It plays nice with all the other solutions in your software stack. Use our **Integration Station** Power-up to connect systems together via our open API and webhooks. This helps to automate processes, saves you time and frees you up to focus on what really matters - *engaging your learners.*

Integration Options:

User Provisioning: Save time by provisioning users from your HR System or CRM.

Content Providers: Connect with third-party providers to build your training library.

Virtual Conferencing: Facilitate virtual classrooms through conferencing tools.

Enhanced Analytics: Make sense of your learning data through enhanced analytics tools.

SSO: Ditch unnecessary login screens through a Single Sign On integration.

eCommerce: Manage and sell courses and subscriptions through your platform.

Social Media: Connect with popular social networks to boost your brand presence.

Learning Platforms: Push learning data between LMSs, LXPs, LRSs and more.

And many more! We will work closely with your team to understand your specific needs and use case. We'll seek to determine which systems and data are involved, which way the data will travel and how often it will do so. Based on this, we will provide you with a custom quote in line with your needs.

Did You Know:
Companies now use an overwhelming **976** applications on average. And only **28%** of these are integrated (Source: Deloitte).
